From a glorious past to a promising future, 1868-2018

Innovation in Science Pursuit for Inspired Research

Innovation in Science Pursuit for Inspired Research (INSPIRE), is an Innovative programme sponsored by the Department of Science and Technology to attract talented once to Science. The major objectives of INSPIRE is to communicate to the young students, the excitements of creative pursuit of Science, to attract to the Study of Science at an early age and to direct human resource to strengthen and expand the sphere of Science and Technology system and R & D base.

A Striking feature of the INSPIRE programme is that the talent is identified not through competitive exams but through the efficacy of the existing educational structure. Every year about 50,000 Students of top 1% performers in class Xth board examination and pursuing science at higher secondary level are being given an exposure with leading scientists/academicians in the winter camp to experience the joy of innovations.

Total slots available for internship: 200
