

# **The Annual Quality Assurance Report (AQAR) of the IQAC**

*(For Affiliated/Constituent Colleges)*

Institutions Accredited by NAAC need to submit an Annual self-reviewed progress report i.e. Annual Quality Assurance Report (AQAR) to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the IQAC at the beginning of the Academic year. *The AQAR period would be the Academic Year. (For example, July 1, 2017 to June 30, 2018)*

### **CRITERION I – CURRICULAR ASPECTS**

#### **1.1 Curriculum Planning and Implementation**

1.1.1 Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

While revision and up-gradation of the syllabi is done at the University level, the college has a mechanism for effective, documented curriculum delivery. Mangalore University has introduced the Credit Based Semester System (CBSS) and all faculty members are advised to attend the workshop regarding effective implementation of the curriculum. For the PG course, the Choice Based Credit System (CBCS) has already been successfully implemented in which a student can choose to study the subject of his interest. The college offers several combinations in Arts and Science faculty. These subjects are allotted to the students as per certain rules like their merit in the intermediate examination and the availability of seats in the given subject.

At the commencement of each semester, every faculty member provides the students with individual lesson plans and reading lists for each course, which are displayed in the classrooms. These lesson plans are adhered to, so that the student is able to gauge with a degree of clarity what portion of the curriculum will be delivered within the stipulated time frame. These lesson plans are also preserved each year as documentation. Besides traditional lectures and seminars, infrastructure for the use of ICT in classrooms like Power Point presentations are available to make the delivery of the curriculum effective and interesting to the students. Group discussions, seminars by the students, and industrial visit are conducted by most of the departments to effectively implement the curriculum content.

Continuous assessment is done by conducting internal assessment examinations and class assignments. Tutorials are conducted via mentoring, and participative learning is encouraged.

Most of the faculty members are well- qualified, with majority of them being Ph.Ds. and are competent in delivering the curriculum in an effective manner. The senior faculty members of the college are members of the Board of Studies, and are involved in designing the syllabi for various courses. Our faculty members have contributed to the curriculum development by preparing question papers for university examinations and question banks.

The college has associations such as the Science Association, Consumer Forum, Commerce Association, NCC, NSS, Red Ribbon Club and Human Rights Cell, etc. Resource persons from various disciplines are invited to deliver talks on current issues, for face- to- face interaction, and provide consultation to students. The college aims to provide not only quality education as per the curriculum, but also co-curricular and extra-curricular activities through various associations in the college, so that the students are equipped with skills to face a competitive global world.

**2.5.2 Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)**

Assessment of performance is an integral part of teaching and learning. Continuous evaluation is carried out throughout the year via regular tests and assignments. In each semester, two internal examinations for science students, and one internal examination and an assignment for other students are conducted as part of the continuous assessment. These internal examinations and the assignments help prepare the students for the University Examinations. Corrected answer scripts are shown to the students to help them see their mistakes / inaccuracies. The teachers explain how students can score better in the forthcoming examinations by expressing themselves more appropriately in response to the questions. Remedial coaching classes are conducted for slow learners and challenged students.

**2.5.3 Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)**

The college is adhered to Mangalore University calendar as a Constituent College. In addition to this, an Academic College Calendar is prepared which contains a list of holidays, commencement of classes, last working day, and commencement of examinations. Each member of the staff and student community receive a copy of the college calendar to enable them to plan for activities.

## **CRITERION VI –GOVERNANCE, LEADERSHIP AND MANAGEMENT**

### **6.1 Institutional Vision and Leadership**

6.1.1 Mention two practices of decentralization and participative management during the last year (maximum 500 words)

- The culture of participative management is encouraged by the Institution. All decisions related to the functioning of the Institution are carried out in a decentralized manner. The top management of the University provides due authority at various levels such as the Principal, HODs, Office Superintendent, etc. Faculty and staff members are involved in various committees formed at the Institution level for the smooth and effective functioning of all activities. The IQAC cell actively contributes in quality assurance of the College. The Head of the Institution has decentralized the administration through various committees for effective functioning, and reviews it by taking feedback from these committees. These committees, which have representation from every department, meet regularly and frame the academic calendar, which enables them to plan and conduct activities accordingly. The Heads of Department have autonomy to allocate the subjects of study to the staff members of their department. The distribution of workload across the staff is done through mutual consent and understanding.

6.1.2 Does the institution have a Management Information System (MIS)?

Yes/No/Partial: **Partial**

- Application Forms for admission are uploaded on the website. Some students download the applications and submit to the office with necessary documents. Selection of candidates is done based on the roaster system with the government reservation policy. The selection list is published in the college website.
- Data required by the University is sent on-line based on the information drawn from the Application Forms for admission.
- All relevant information regarding the college, notices and announcements are uploaded on the website.
- All Fees are paid on-line in the bank. Likewise fees for University Examination
- Parent Teacher meetings are also held. Information is disseminated through college website, Social Network: Information to stakeholders through college website.
- Staff members are informed through SMS, WhatsApp group and verbally through meetings.

### **6.2 Strategy Development and Deployment**

6.2.1 Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

#### **❖ Curriculum Development**

Curriculum is set by the University. Suggestions from the Workshop regarding new curriculum were forwarded to the University for improvement. Academic mentoring of students is done by the teachers. Mangalore University has introduced the Credit Based Semester System (CBSS) and all the faculty members are advised to attend the workshop regarding the effective implementation of the curriculum. For PG course Choice Based Credit System (CBCS) has been already successfully implemented in which student has his own choice to study the subject of his

interest. At the commencement of each academic year, every faculty member provides the students with individual time plans (lesson plans) and reading lists for each course which are displayed in the classrooms.

### ❖ **Teaching and Learning**

The Institution ensures effectiveness of the teaching-learning process by:

- Preparation of the Academic Calendar well in advance before the start of the semester and adhering to it;
- Monitoring the quality and content of the teaching learning process via the Academic Monitoring Committee through regular reviews of the academic delivery system;
- Collecting students' feedback in each semester and assessing teacher quality through the same;
- Continuous assessment of students' performance through tests, assignments, seminars, and projects;
- Promoting professional development of faculty by providing support for FDPs, workshops, conferences, etc.;
- Establishment of a Media lab, which benefits the students of Journalism and Mass Communications; and
- Conducting group discussions, seminars by students, and industrial visits by most departments to make the teaching and learning more effective.

### ❖ **Examination and Evaluation**

Assessment of performance is an integral part of teaching and learning. Continuous evaluation is carried out throughout the year through regular tests and assignments. In each semester, two internal examinations for science students, and one internal examination and an assignment for other students are conducted as part of the continuous assessment. These internal examinations and assignments help prepare the students for University examinations. Corrected answer scripts are shown to the students to help them see their mistakes / inaccuracies. The teachers explain how the students can improve in the forthcoming examinations by expressing more appropriately to the questions.

### ❖ **Research and Development**

A Research Forum was formed in the College. Special lectures are arranged frequently. About 22 staff members are recognized as Ph.D. guides and are guiding 118 research students. The teachers and research scholars are encouraged to participate in seminars and conferences and present their research articles. The faculty members have published 19 articles in UGC refereed journals, 15 articles in conference proceedings, and more than 40 in international, national, and state and regional level conferences and seminars.

### ❖ **Library, ICT and Physical Infrastructure / Instrumentation**

#### **Library**

- Central Library is using the LIBSYS Library Software for all day- to- day library activities.
- Bar code based system is used for issue / return of books.
- Book bank scheme for SC & ST students
- Copies of old question papers & university syllabus available in library.
- Staff and students can access E-books and E-Journals through NLIST

#### **ICT**

Five class rooms are ICT enabled with high speed internet and LCD projector.

#### **Physical Infrastructure:**

- Campus security using surveillance cameras
- Canteen facility is available.

- Academic, personal, career and psycho-social Counselling services available to the students
- Slow learners are identified and advised to have remedial classes.
- Economically poor students are provided with free mid-day meal.
- The College has a well-established Career Guidance Cell with adequate books and internet facility.

#### ❖ **Examination**

In each semester two internal examinations for science students, one internal examination and an assignment for other students are conducted as part of continuous assessment. These internal examination and the assignments will help to prepare the students for University Examinations. Corrected answer scripts are shown to the students for scrutiny. The teachers explain about how scoring by the students can be better in forthcoming examinations by expressing themselves more appropriately in response to questions. Remedial coaching classes are conducted for slow learners and challenged students.

Most of them are not able to bring food from home, and so the teachers have decided to provide mid-day meal to them. An approximate amount of Rs. 5 lakh was collected as donation from the staff to this purpose.</li> <li>4. <b>The Practice:</b> Applications are invited from needy students and an interview is conducted by a Selection Committee constituted by the Principal to identify poor students who really need the benefit of this scheme.</li> <li>5. <b>Evidence of Success:</b> On experimental basis, the scheme was introduced free of cost for 75 students in the first year, and now there are around 200 students getting this benefit.</li> <li>6. <b>Problems Encountered and Resources Required:</b> There are still some students who need the benefit of this scheme. Due to lack of resources, it is not possible to accommodate all of them. With help of donors, it is planned to extend the scheme to all needy students.</li> </ol>		

## Best Practice #2:

### 1. Title of the Practice: Green initiatives

2. Objectives of the Practice: To maintain an eco-friendly campus.

3. The Context: Since the College is located in the heart of the city, there are a number of vehicles which ply in and around the campus making difficult to lower the temperature on the college campus.

4. The Practice: A holistic education is imperative to create socially responsible individuals. Higher education cannot limit itself to merely providing academic training. It is important that students are made aware of their duties and responsibilities towards society and the world at large. Being sensitive and responsive to the environment is a trait that has to be inculcated in children at a young age in school and reinforced at the level of higher education. To set an example and inspire all stakeholders to opt for environment friendly alternatives, the College has initiated the following practices:

- **Solar energy and usage of LED bulbs:** The College has installed solar lights in the campus and rooftop solar panels and linked it with the existing Karnataka Electricity Board grid system. It has been initiated to replace all the existing bulbs with LED bulbs to reduce power consumption.
- **Ban on plastic:** The usage of plastic is completely banned in the college campus.
- **Rainwater harvesting:** The College has initiated the creation of an infrastructure to facilitate rain water harvesting on a large scale. The green grounds around the College building allow the rainwater to percolate through the soil so that the deep water aquifer/underground water reserve gets replenished.
- **Vermicomposting:** It is initialized to set-up a vermicomposting unit in the College, which will help to promote organic gardening.
- **Saving paper:** The College is consciously working towards reducing the use of paper by way of digitalization of documents and introduction of e-academic management system, which involves digital management of students' academic details including marks, attendance, etc. The College also encourages duplex printing and photocopying and recycling of paper.
- **E-waste management:** Repairing and recycling of laptops, computer hardware, and projectors is encouraged and executed frequently. Some departments use overhauled computer peripherals and laptops as a part of this process. Disposal of unusable hardware is achieved through buy-back policies and the money is utilized to get new and upgraded equipment.

5. Evidence of Success: Each initiative undertaken by the College is a small step towards the greater good of humankind. It must be understood that these initiatives take time to bring about significant changes, however the efforts are bearing fruit and gradual changes are becoming visible.

- There has been a sharp decline in the total electricity consumption after the installation of solar lights and LED bulbs.
- The construction of tanks for rain water harvesting has been initiated, and it is hoped that by the end of 2020, the project of rain water harvesting will be successfully implemented.
- As hoped for, vermicomposting has been successfully implemented

- By the end of 2020, it has been decided to establish e-academic management system and duplex printing so that the usage of paper is drastically reduced.

6. **Problems Encountered and Resources Required:** Financial constraints remain the biggest problem for expensive green initiatives like rain water harvesting. The College is attempting to raise funds for this through a number of channels. Educating the local community about green initiatives so that they too adopt adequate measures.

### 7.3 Institutional Distinctiveness

Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust

Provide the weblink of the institution in not more than 500 words

**Vision: To be the centre for knowledge for all sections of the society.**

University College, Mangalore, formerly known as Government College from glorious past is marching ahead towards a bright future. *“To be the centre for knowledge to all sections of the society”* is the guiding spirit of this institution. Going through the trajectory through which it has traversed, it is obvious that collective wisdom of people of Mangalore did a lot to realise the vision of founding fathers of this College.

Though the College was started in 1868 as provincial school; it had to wait up to 1902 to welcome girls to pursue higher education. Inheriting a rich tradition of imparting quality education to the needy and the marginalised, the institution has remained committed to the cause for which it came into existence. Under the stewardship of great educationists and administrators like Prof. Govinda Krishna Chettur (G.K Chettur), the College introduced an enlightened world through frontiers of knowledge to the needy and the deprived. Education that was imparted in this great institution was powerful enough to shape great personalities who left a lasting impression in the history of this country.

The College is now recognised as College with Potential for excellence by University Grants Commission (UGC) and is accredited with ‘A’ grade by NAAC.

Ravindra Kalabhavana Complex is restored with a special grant of 1.83 crores by UGC under the scheme, “Granting of Heritage Status to College”. Mangalore University contributed Rs.67 lakhs to the UGC grant and the restoration project is completed at a total cost of Rs.2.5 crores.

A Strong Alumni Association, very supportive Parent Teacher Association, dedicated team Teaching and Administrative Staff, energetic and enthusiastic Students, have been responsible in taking the College, close to heart and mind of people of this region. Having completed 150th years of fruitful existence, the tradition of excellence the successful saga of University College continues with renewed vigour.

Commitment to the cause of imparting education to all sections of the society as per spirit of law of the land has been our priority. Educating the students about the welfare measures extended by state, and helping them to make use of the same. In addition to securing knowledge through curriculum has been our thrust area. Care is being taken to standby poor and needy whenever they need the helping hand.

## 8. Future Plans of action for next academic year (500 words)

Institution is striving hard to create suitable infrastructure resulting in conducive environment to pursue their education. By taking into confidence of stakeholders the following plan is drafted for the future

- To encourage staff members to apply for DST and UGC research projects;
- To strengthen the existing system of student mentorship through academic advisors;
- To install the software “Student Information System” to initiate e-governance in admission, monitoring attendance, and internal assessment marks;
- To take necessary steps to organize job fairs and strengthen the Career Guidance cell so as to increase the employability of the students;
- To establish smart classrooms and encourage the faculty to use modern teaching gadgets and to use the Massive Open Online Courses (MOOC); and
- To install CCTV cameras in all classrooms and laboratories...
- To install the public address system to all class rooms and laboratories.
- To set up a Language lab to help students to prune up their soft skills.
