150TH YEAR CELEBRATION

On the eve of sesquicentennial celebration of University College held from 6th February 2020 to 9th February 2020, exhibition was organised in the college premises. Students from various departments participated in the event.

Students from Commerce Department, presented three different types of models, under the theme “Solid waste management” “Consumer Forum” and “Smart City”, they also exhibited various items made out of waste under the theme “Best out of waste “along with the demonstration of pot-composting by final year student Kishan and his team.

1. “SOLID WASTE MANAGEMENT”:

Students apart from displaying waste recycling mechanisms, explained through the model the major components of solid waste management like primary collection, transportation, disposal, segregation and processing of waste. They also created an awareness on eco-friendly practices.

2: “SMART CITY”:

Smart city project of students focused on the development of waterfronts, roads and improvement of fisheries. In the model, students had included clock tower, college, apartments with helipad and some infrastructure like roads, metro, solar lights, water supply networks, modern car parking, modern fisheries techniques.

3. “CONSUMER FORUM”:

Through the model consumer forum, students created awareness among the consumers about their rights under Consumer Protection Act, Quality Control Marks, and provided valuable information and procedure about filing the case in Consumer Forum for the complaints. In the model, they had depicted Consumer Forum and had displayed posters cautioning consumers against exploitation.

4: “BEST OUT OF WASTE”:

Students created innovative and useful items out of the waste materials rather than putting them into landfills. Exhibition gave an opportunity and platform to showcase student’s creative skills and artistic excellence.

We had a positive, overwhelming response for our student's hard work and dedicated performance during the exhibition.
