LEARNER MENTORING POLICY

University College, Mangalore is committed to create and maintain an environment of excellence in education through technological advancements, effective pedagogy and methods of evaluation and enabling students to access support systems to meet their academic needs.

It ensures that learners can work with a mentor who offers support and guidance on emotional, social and academic issues. Henceforth, a supportive relationship is created for better understanding of the student's ambitions, strengths and weaknesses. The College is committed to assessing the effectiveness of the Learning Mentor Policy and procedures and making necessary adjustments in response to the needs of those involved. For these students who could not think of any adult, they believed, cared about their success. This college has a set of teachers who act as community volunteers on standby as academic counsellors. They try to enhance the existing knowledge and skills from their seventeen's.

This Policy is encouraged by the following principles:

- Learners must be assisted to achieve their potential at College, in an environment where their general well-being is gratified.
- To assist and develop BASICS (Behaviour, Attitude, Skills, Integrity, Competencies and Service) vital for a healthy and positive life.
- Learners who are at-risk of failure in academics will have the opportunity to work with a mentor who will conduct remedial classes as a means of encountering the academic issues.
- To provide holistic services and help students to become self-reliant and confident.
- To assist students in building life skills through value-based education and service-oriented programs by working towards specific skills of the mentee.
- There is an assessment process for evaluating the effectiveness of mentors-mentee relationship and also to identify possible obstacles.

- Sharing Information of the mentee- In case the mentor leaves. the information about the mentee is shared with the new mentor.

Responsibilities of a Mentor:

- Each student is allocated a faculty mentor.
- A mentor will provide support to 40-50 mentees.
- The mentors should try to apprehend their mentees and help them resolve issues related to their surroundings.
- The mentors should identify students with academics, behavioural and emotional issues, and should send them for counselling to the Counselling Cell.
- The mentors should motivate students to participate in extracurricular activities, to promote healthy behaviours (maintain discipline, as howling and whistling in the college premises is prohibited).
- The mentors are expected to maintain a professional relationship with the students (no personal relationships should be encouraged).
- The mentor acts as a coach and guide for the trainee.
- The mentor plays a critical role in the trainee' Internship and placements by preparing them in professional aptitudes.
- Mentors should maintain confidentiality with regard to the student's report.
- The student's report should be regularly assessed by HODs, principal, and Parents.

Responsibilities of a Mentee:

- It is mandatory for the students to fill their mentoring work books during the mentoring sessions.
- Mentees should not initiate any discussions related to infrastructure and facilities as it is not a medium for complaints.
- Mentee should maintain a healthy relationship with the mentors.
- Mentees should meet with their respective mentors at least once in a month.
- The Mentees can share their aims, aspirations, thoughts, concerns, and feelings related to academics and social activities with their free will.

Successful mentors- mentees relationships are these where mentors- mentees are aligned to achieve the same goals and objectives. In the end such a programme works for the benefit of mentors, mentees, parents, principal, teachers and all the people involved.

some rules to be followed by the students and information about the format of the online class were given. As there are no physical classes, students were told how they could freely participate in the discussion in the class and some suggestions were given to the students to overcome the negative aspects like fear and hesitation about the online class.

4.

At the same time, online activities were undertaken to fill the emptiness of the physical classroom, which the students suffered a lot. Doubts arising in the text taught by lecturers were often suggested to be resolved. Encouraged to actively participate in activities.

Most students of this class always face problems with English language. They are always motivated to read and speak English so that they can come out of the fear of language. Every student is different as this student had a problem of migration nature of his parents' job. His parents were working in the construction field and were shifting from one corner of the city to another. So this time this boy could not attend classes for nearly 15 days as they were shifting their house.

Attendance is compulsory for writing exams as well as maintaining support. This time attendance shortage was relaxed due to COVID reasons. This has helped our student to attend his final exams.
