

UNIVERSITY COLLEGE, MANGALORE

WOMEN CELL

The Women's Cell has been established to foster a harmonious environment within the Campus, enabling women to work with dignity and confidence. It is committed to promoting gender equality, ensuring a safe and supportive campus atmosphere, and empowering female students and staff through a range of educational, social, and skill-building initiatives. The Cell serves as both a proactive platform for awareness and a responsive body for addressing grievances.

Objectives

1. To strengthen the self-esteem and self-confidence of the women staff and students of the College.
2. To inspire women staff to play a key role in empowering the girl students of the College.
3. To help women staff manage stress arising from work pressure and the dual responsibilities they handle at home and in the College.
4. To raise awareness among female staff about health, hygiene, women's empowerment, and gender equity.
5. To foster leadership qualities among the women staff and students of the College.

Currently this Women's Cell actively ensures the safety and well-being of women on campus through effective grievance redressal and awareness programmes. It conducts initiatives on empowerment, leadership, health and hygiene, self-defense, entrepreneurship, career guidance, and mentorship while promoting an inclusive campus environment. By addressing practical, social, and legal issues, it helps students grow into confident, independent, and socially responsible individuals.

The College has a significantly high number of women among its staff and student community. Many key administrative roles—including Heads of various Departments, Library in-charge, Office Superintendent, and several other important positions—are effectively managed by women. They effectively manage important academic and cultural responsibilities, including examinations and event coordination. Women staff actively engage in curricular and extracurricular activities while balancing work and home responsibilities, and many girl students in the Students' Council manage multiple roles effectively. The

Women's Cell collaborates with student representatives, the Internal Complaints Committee, and SPARSH Committees to promote gender equality awareness.
